Summary

UI Developer with 8+ years of experience building responsive, accessible web interfaces, including 3+ years specialising in React.js. Skilled in translating designs into reusable component systems, and in structuring frontend architecture (state management, routing, API integration, and build tooling) for teams to move fast without breaking things.

Core Skills

HTML5, CSS3, JavaScript, React.js, Material UI, Bootstrap, Ant Design, Tailwind CSS, Git, Vite, Node.js, MongoDB, AWS, Jira

Experience

Senior UI / React Frontend Developer *— Current*

Leading UI development for lending and onboarding platforms — Gold Loan LOS, LAP Onboarding and Channel Partner portals — using React.js, Material UI and reusable component libraries.

React Frontend Developer *— Mid career*

Rebuilt legacy UI screens as React.js applications (Loan Onboarding Application, Quiz Game), introducing shared component patterns and standardised state management across projects.

UI Developer *— Early career*

Built responsive marketing sites and internal tools with HTML, CSS, JavaScript and Bootstrap, focused on cross-browser layout and accessible markup.
